

NextStar Energy Employees Raise over \$10,000 for CAS Holiday Program, Collect Food Donations for Windsor Goodfellows

- NextStar Energy employees raise over \$10,000 for Windsor Essex Children's Aid Society
- Employees also ran a food drive to support the Windsor Goodfellows food bank

19 December 2024 – Windsor, ON -- NextStar Energy employees have come together this holiday season to support two important organizations in the community. Employees recently raised \$10,754 for the Windsor-Essex Children's Aid Society Holiday Program, which will go toward helping over 100 youth and foster families this season.

"This very generous donation from NextStar Energy employees will go a very long way in supporting vulnerable children, youth, and families that are served by the Windsor Essex Children's Aid Society," said Derrick Drouillard, Executive Director at Windsor-Essex Children's Aid Society." On behalf of all those we serve, the Windsor Essex Children's Aid Society staff, the board of directors and our volunteers, we extend our appreciation to NextStar Energy for this donation and their support."

In addition, the NextStar team ran a successful food drive, collecting hundreds of items for the Windsor Goodfellows. Their weekly food bank provides thousands of Windsor-Essex families with necessary grocery staples all year long.

"I'm extremely proud of our NextStar family for continually giving back to our community," said Danies Lee, NextStar Energy CEO. "Their generosity not only reflects the compassion we stand for, but also reinforces the values that drive us as NextStar continues to grow."

Those wishing to donate to either organization can visit WEcaf.on.ca or WindsorGoodfellows.org to learn more.

NextStar Energy

NextStar Energy, a joint venture between LG Energy Solution and Stellantis, is Canada's first large-scale EV battery manufacturing facility. Located in Windsor, Ontario, NextStar Energy is dedicated to the development and innovation of sustainable and efficient energy solutions, empowering the future of mobility.
